Sreya Kambhatla

sreyakambhatla@outlook.com | +1 (732)-546-1530 | Rockville, MD | linkedin.com/in/sreyakambhatla

PROFESSIONAL SUMMARY

Data Analyst with 2+ years optimizing business operations through SQL, Python, and BI tools. Specialized in dashboard development, process automation, and data pipeline integration. Reduced manual reporting effort by 50%+ through custom analytics solutions.

TECHNICAL SKILLS

Languages: SQL, Python, R, PowerShell, HTML
Data Visualization: Tableau, Power BI, Matplotlib, Seaborn
Tools & Platforms: ServiceNow, Jira, Git, Jupyter Notebook
Databases: MySQL, Oracle, DynamoDB
Cloud: Microsoft Azure, Google Cloud Platform
Methods: ETL, A/B Testing, Machine Learning, NLP, Agile/Scrum, Data Mining, Statistical Analysis, Root Cause Analysis

PROFESSIONAL EXPERIENCE

Asset Management Analyst (Data & BI Focus)
Nike WHQ (Cognizant) | Beaverton, OR | Oct 2024 – Present

- Built and maintained a **real-time shipment tracking dashboard** monitoring **500+ daily shipments** using Python, SQL, and Streamlit, reducing manual tracking effort and improving logistics visibility for cross-functional teams.
- Analyzed end-to-end **Confidential Data Asset (CDA) laptop lifecycle** using SQL and Python, performing root cause analysis to identify workflow bottlenecks.
- Performed detailed **inventory and consumables audits across 2000+ assets**, achieving **95% accuracy** and improving asset reconciliation processes.
- Partnered with **business stakeholders** to define inventory KPIs in Power BI, analyze trends using SQL, and recommend actions.
- Managed data entry, validation, and reconciliation of **10,000+ inventory records** to support **perpetual inventory accuracy** and demand planning.
- Coordinated with vendors on hardware asset returns, implementing a **data-driven return strategy** to maximize recoverable value.

Data Analyst
Rutgers University | NJ, USA | Sept 2022 – Sept 2023

- Developed **interactive Power BI dashboards** to monitor user behavior and key performance metrics, enabling real-time insight into game performance.
- Conducted **SQL and Python-based analysis** of in-app surveys and A/B test results to identify engagement patterns and optimization opportunities.
- Collaborated with stakeholders to translate **business questions into analytical requirements** and actionable visualizations.
- Integrated Power BI with relational databases to deliver **dynamic, self-service reporting** for decision-makers.
- Championed **data governance and quality standards**, improving reliability and consistency of analytical outputs.
- Delivered analytical insights that contributed to a **96% client satisfaction rating** for the deployed product.
- Applied **predictive modeling and machine learning models** (logistic regression, random forest) to predict user churn and engagement likelihood, improving retention targeting by **15%**.

Jr. Data Analyst
Tech Mahindra (Intern) | Hyderabad, India | Jan 2022 – July 2022

- Documented and analyzed **business and reporting requirements** for data warehouse and BI initiatives.
- Executed **data integration and ETL processes including data pipeline development** for enterprise data warehouses across multiple business functions.
- Designed analytical datasets and KPIs leveraging statistical analysis to support **operational** and **marketing analytics**.
- Developed **Tableau dashboards and SQL-based reports**, enabling stakeholders to track performance and trends.
- Executed **data cleansing and validation** processes to resolve integrity issues and improve reporting accuracy.
- Collaborated within **Agile Scrum teams**, contributing to sprint planning, JIRA tracking, and continuous process improvement.

EDUCATION

Master of Science – Computational Science
Rutgers University | NJ, USA | 2024

- Relevant Coursework: Business Analytics, SQL & Database Systems, Machine Learning, Big Data Analytics, Artificial Intelligence, Optimization Methods

Bachelor of Technology – Computer Science Engineering
ICFAI University | Hyderabad, India | 2022
Relevant Coursework: Probability & Statistics, Database Management Systems, Data Visualization, Big Data Systems
